3) https://help.blackboard.com/Blackboard_App/Announcements

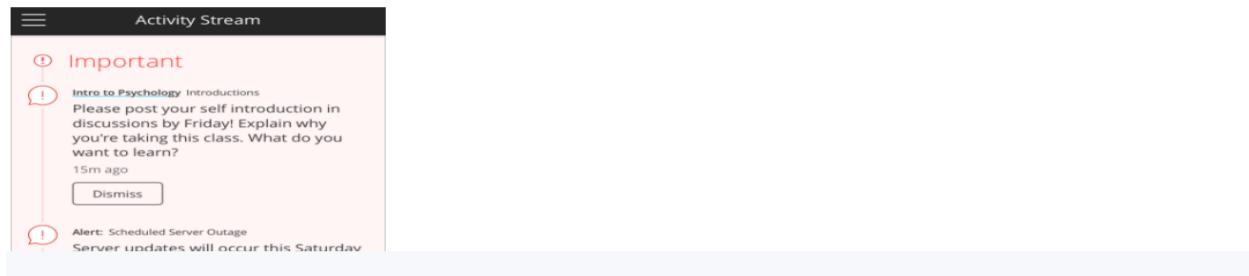

The screenshot displays the Blackboard Help page for the 'Announcements in the Blackboard App'. The main title is 'Announcements in the Blackboard App'. On the left, a sidebar lists various course categories like Collaborate, Discussions, Due Dates, Grades, Cloud Storage, Profile, Push Notifications, Tests and Assignments, What's New, Common Questions, Accessibility, Transition to New Blackboard Apps, Administrator Info, Blackboard Data, Blackboard Instructor, Collaborate, Community Engagement, Connect, CourseSites, and Learn. Below this is a summary section with 'DUE DATES' (No Items Due), 'COURSE MATERIALS' (Announcements - 3 items, Course Content - 10 items), and a 'Current Grade' card showing 'A+' based on submitted work. To the right, there are two main sections: 'Announcements in courses' and 'Announcements in activity stream'. The 'Announcements in courses' section shows a list of announcements from 'Introduction to Sociology' by 'Cathy Chu' (Complete online requirements... and Research Paper Outline Review). The 'Announcements in activity stream' section shows a list of alerts from 'Cathy Chu' (2/7/19, 3:03 PM) and 'Guest Lecturer - Oliver Johnson' (2/11/19, 6:00 AM). A pink arrow points from the 'Announcements' link in the sidebar to the announcement list in the 'Announcements in courses' section.

Announcements in activity stream

The app's *Activity Stream* shows announcements for all courses and system-wide alerts from your school. System-wide alerts may also show in *Announcements* within your courses if the sender selected that option.

ⓘ How to dismiss announcements and alerts in the activity stream

The screenshot shows the 'Activity Stream' interface. It features a sidebar with a menu icon and the title 'Activity Stream'. Below this is a list of items: 1. An 'Important' announcement from 'Intro to Psychology' about self-introductions due by Friday. It includes a 'Dismiss' button. 2. A system-wide alert from 'Cathy Chu' about a scheduled server outage on Saturday. A pink arrow points from the 'Important' announcement in the sidebar to the first item in the list.
